4th Annual UCSF/IGOT Pediatric Limb Difference Webinar

# Post-Traumatic Limb Deformities in Children and Young Adults: A Global Perspective

For more course information, please email: [limbdifferences@ucsf.edu](mailto:limbdifferences@ucsf.edu)

Friday, June 13, 2025 • Live Stream • 6:00 am - 11:30 am PST

## COURSE OBJECTIVES

- Discuss the comprehensive management of a child with post-traumatic lower limb differences in diverse practice settings
- Explore unique strategies for managing sequelae of injuries to the growth plate
- Review different options for addressing post-traumatic malunions
- Using case-based discussions, identify management strategies for post-traumatic bone loss, including amputations and blast injuries
- Learn low-cost creative solutions for managing post-traumatic deformities from global experts

Virtual Live Stream

## TARGET AUDIENCE

ORTHOPEDIC SURGEONS AND LEARNERS ACROSS THE GLOBE
